

CRAWLER DOZERS

1150K | 1650L | 1850K

Performance and productivity

Your jobs require a crawler dozer that is powerful and maneuverable enough to handle the most demanding applications. Case crawler dozers deliver.

Heavy duty muscle comes from a fuel efficient, electronic controlled, six-cylinder engine, while single lever controls deliver maximum maneuverability. With a Case crawler dozer, power is maintained to both tracks while turning, making it possible to push a full load through a turn without losing control of the load or raising the blade.

With Case, you've got a machine that lets you move more material with each pass; improving your efficiency while lowering your operating cost per cubic yard. From residential construction to road and bridge projects, Case crawler dozers get the job done quickly.

XLT Extra Long Track	1150K	1650L	1850K
Engine – net hp (kW)	118 (88)	144 (107)	184 (137)
Operating weight – lb (kg)	27,858 (12 636)	35,203 (15 967)	46,649 (21 159)
Blade capacity – cu yd (cu m)	3.8 (2.9)	4.1 (3.1)	7.3 (5.6)
Track on ground – in (m)	102 (2.6)	120 (3.0)	126 (3.2)
Biodiesel rating	B20 approved	B20 approved	B20 approved

LGP Low Ground Pressure	1150K	1650L	1850K
Engine – net hp (kW)	118 (88)	144 (107)	199 (148)
Operating weight – lb (kg)	29,365 (13 320)	37,578 (17 045)	49,450 (22 430)
Blade capacity – cu yd (cu m)	4.2 (3.2)	4.2 (3.2)	7.1 (5.4)*
Track on ground – in (m)	102 (2.6)	120 (3.0)	126 (3.2)
Biodiesel rating	B20 approved	B20 approved	B20 approved
